INDEX TO VOLUME XXIX

1947

SUBJECTS

Administrative organization, procedure and policy, Developments under the research and marketing act of 1946—Finance, 1378
Advantages and disadvantages of direct payments with special emphasis on marketing considerations, 250
Agricultural adjustments in the South, Some economic and social implications of, 192, 199, 201, 203, 205
Agricultural economic data to the membership of farm organizations, Problems of effective presentation of, 1214.
Agricultural economic majors for business careers, Training, 1341
Agricultural economics, the early years, The bureau of, 1017
Agricultural economics, the years in between, The bureau of, 1027
Agricultural legislation: an appraisal of current trends and problems ahead, 41, 84
Agricultural policy, Programmatic research and, 359
Agricultural program, Postwar, 64
Annual business meeting; American Farm Economic Association, 337, 1011
Annuity principle in transferring the farm from father to son, Use of the, 409
Application of work simplification techniques to marketing research, 209
Appraisal of rural planning in the United Kingdom, 1089
Asset characteristics of farms, Methods of financing related to, 1158

Bureau of agricultural economics, the early years, 1017
Bureau of agricultural economics, the years in between, 1027
Bureau of agricultural economics program in enumerative sampling, 233
Business careers, Training agricultural economic majors for, 1341

Capital returns, from soil-conservation practices, 1181
Discussion of capital returns from soil-conservation practices, 1196
Discussion of capital returns from soil-conservation practices, 1199
Capitalistic economy, Cooperatives in a, 1133
Carcass grade and weight studies in marketing livestock, 1424
Census enumeration of livestock on farms, The 1945, 691
Collaboration between marketing economists, engineers, and other specialists, 1406
Compensatory payments, Some effects of, 256
Conservation, Evaluating soil, 475
Cooperation Review of papers on agricultural, 128
Cooperation, A theory of, 94
Cooperation in dairy marketing, Regional and interregional, 1389
Cooperatives in a capitalistic economy, 1133
Discussion of cooperatives in a capitalistic economy and The place of cooperatives in a sound farm economy, 1151, 1154
Cooperatives in a sound farm economy, The place of, 1145
Cooperatives in the United States, The future of farm, 115
Credit services to American agriculture, The federally sponsored, 1429
Current issues of federal land management in the western United States, 1295
Discussion of current issues in federal land management in the western United States, 1314, 1315
Curriculum for agricultural economics majors, Some considerations in building a, 1319

Dairy marketing, Regional and interregional cooperation in, 1389
Dairy marketing research round-table meeting, 283
Discussions, 284, 288
Dairy policies, Wartime, 679
Deficiencies in the United States diet, and means of meeting them, 320
Developments in poultry marketing research, 1413
Developments under the research and marketing act of 1946—Finance, administrative organization, procedure and policy, 1378

Devil can also quote statistics, The, 1209
Diet, and means of meeting them, Deficiencies in the United States, 320
Direct payments with special emphasis on marketing considerations, Advantages and disadvantages, 250

Economic evaluations of soil and water conservation measures and programs, 1275
Discussion of economic evaluation of soil and water conservation measures and programs, 1315
Economic implications of technological developments in agricultural production, 299
Economic stability of American agriculture, 809
Economic thinking, Recent developments in, 261
Economics of farm leasing systems, 659
Effects of employment upon factor costs in agriculture, 1122
Efficient is American agriculture?, How, 644
Elementary course, The, 278
Employment upon factor costs in agriculture, Effects of, 1122
Evaluation soil conservation, 475
Evaluation of work simplifications research and teaching activities, 225
Evaluation of work simplification research and teaching activities: Review, 231
Extension work, Farm and home planning, a new approach to farm management, 167.

Factor costs in agriculture, Effects of employment upon 1122
Family farm, Measuring the, 506
Farm and home planning, a new approach to farm management extension work, 167
Farm and home planning, Research needed in economics for, 175
Farm attitudes and methods of supporting prices, 246
Farm habilitation perspectives in the postwar period, 723
Farm income, by size, Some statistical problems involved in types of, 1257
Farm land boom, 130
Farm leasing systems, Economics of, 659
Farm management data, The role of modern statistics in analyzing, 1241
Farm planning, The natural sciences and, 183
Farm management research, The role of sampling in, 1229
Farm Management research at Cornell, Sampling methods in use in some of the, 1267
Farm organization economists in the formulation of farm organization policy, The role of the, 1203
Farm organizations, Problems of effective presentation of agricultural economic data to the membership of, 1214
Farm price gyrations—an aggressive hypothesis, 383
Farm production and income, Food consumption in relation to, 329
Farm survey by the bureau of agricultural economics, The sample design for a national, 241
Farm workers in the United States, Migratory, 711
Federal credit agencies as an influence upon land values, 150
Federal projects submitted under the research and marketing act of 1946, 1383
Federally sponsored credit services to American agriculture, The, 1429
Discussion of the federally sponsored credit services to American agriculture, 1502
Discussion of the federally sponsored credit services to American agriculture, 1505
Discussion of the federally sponsored credit services to American agriculture, 1510
Discussion of the federally sponsored credit services to American agriculture, 1514
Finance, administrative organization, procedure and policy, Developments under the research and marketing act of 1946, 1378
Financing related to asset characteristics of farms, Methods of, 1158
Florida citrus associations, Integration of marketing and production services by, 495
Food, agriculture and trade, 1
Food, and nutrition policy, Nutritional aspects and farm family needs in a, 333
Food and nutrition program for the United States, 320
Food consumption in relation to farm production and income, 329
Food consumption, past and prospective, Levels of, 323
Food economy, Trends in world, 1043
Future of farm cooperatives in the United States, 115

Geneva Trade Conference to United States agriculture, Significance of the, 1055
Government and the economy, 77
Grain marketing, Research in, 1417
Guideposts in the development of a marketing program, 616
